

EMU and Ethiopia METEC Signs Collaboration Agreement

A Collaboration Agreement had been signed between Eastern Mediterranean University (EMU) and Metals and Engineering Corporation of the Federal Democratic Republic of Ethiopia (METEC) at Ethiopia's capital Addis Ababa by EMU Vice Rector For Financial Affairs Prof. Dr. Sevin Uđural and METEC Vice President General Tigabu Fetle. METEC, an institution that produces

56 per cent of Ethiopia's national income, contacted EMU two years ago and declared their request for Ethiopia's ministers, undersecretaries and senior bureaucrats to receive masters and PhD education at EMU Department of Economics. EMU begun working on a graduate program for two years and conducted a workshop titled "Priority Topics For Ethiopia's Economic Progress"

between 22nd – 25th July 2017 at Addis Ababa. EMU Vice Rector For Financial Affairs Prof. Dr. Sevin Uđural who carries out the project for two years, EMU Department of Economics Chairman Prof. Dr. Mehmet Balcılar and two professors from Turkey attended the workshop. As a result of the studies, EMU and METEC had signed a Collaboration Agreement. According

to the agreement, in addition to the fundamental courses provided in its masters and PhD programs, EMU Department of Economics will extend their programs to include courses and projects that are concerned directly with the examination and solution of Ethiopia's economical problems designed for Ethiopian officials.

EMU Hosting World Renowned Conference on Clean Energy

Organised jointly by Eastern Mediterranean University (EMU), University of Miami and State University of New York Fredonia, 16th International Conference on Clean Energy (ICCE 2018) will be taking place between 9 – 11 May 2018 at Salamis Bay Conti Hotel. During the world-famous energy

conference which will be taking place with the collaborations of EMU Energy Research Centre (EMU – ERC) and Clean Energy Research Institute (CERI) of University of Miami, scientists will be discussing the two global problems of humanity: the depletion of fossil fuels and overcoming global warming

issues with clean and sustainable energy solutions.

The scientific, engineering, economical, political and legal dimensions of the said global problems will be discussed during the conference via the presentations of the participating scientists. The conference

will provide a discussion platform in the topics of renewable energy resources, hydrogen energy, solar energy, nuclear energy, clean hydrocarbon technologies, energy efficiency, energy storage and distribution, automatization of energy utilization, green constructions with renewable energy, energy management, energy policies and energy economy.

The Deadline for Submitting Proposals is October 2, 2017

The selected papers will be published in 5 different reputable journals. The participating academics may submit their abstracts to energy.submission@emu.edu.tr by October 2, 2017. Further information about the conference may be obtained at <http://icce2017.emu.edu.tr>.
