

TEAM FROM EMU CARRIES OUT HIGH - LEVEL VISITS IN IRAN

Eastern Mediterranean University (EMU) Rector Prof. Dr. Necdet Osam and his team travelled to Iran carrying out a series of visits between the 1st and 3rd of September 2018. The team from EMU paid visits to the Parliament of Iran, Iran's Ministry of Health, Iran University of Medical Sciences and the Tehran University of Medical Sciences. During the

visits, academic collaborations and new arrangements in health education were discussed. During the visits in Iran, EMU Rector Prof. Dr. Necdet Osam was accompanied by Vice Rector for International Affairs and Promotion Prof. Dr. Cem Tanova, Public Relations and Press Office Director (a.) Murat Aktuğralı and Rector's Consultant Aman Rassouli.

EMU HOSTS PROF. DR. ALLAM

The German University in Cairo academic staff member Prof. Dr. Abdelmegid Mahmoudabdalla Allam visited the Eastern Mediterranean University (EMU) from the 26th to the 30th of August 2018.

Prof. Dr. Allam who is a co-supervisor of a student at the Department of Electrical and Electronic Engineering delivered two seminars on consecutive days. The seminars aimed towards EMU students were on "Aviation Navigation" and "Diagnosis of diseases in human tissue using microwave antenna sensors".

Visit to Prof. Dr. Necdet Osam and Prof. Dr. H. Tanju Besler
During his time at EMU, Prof. Dr. Allam visited EMU Rector Prof.

Dr. Necdet Osam and Vice Rector for Academic Affairs Prof. Dr. Halit Tanju Besler. During the visit, he received information about EMU and discussed possible collaborations between the two universities.

In addition student exchange programs, a joint scientific project, the design and production of antennas small enough to integrate into the human body at EMU and the formation of a laboratory where they can be tested were discussed. Prof. Dr. Allam provided information about the German University in Cairo also stating that he was hosted very well at EMU which he described as an impressive university. During the visit Prof. Dr. Allam was accompanied by Department of Electrical and Electronic Engineering Chair Prof.

Dr. Hasan Demirel and Vice Chair Assoc. Prof. Dr. Rasime Uyguroğlu.

Who Is Prof. Dr. Allam?

Prof. Dr. Allam is currently the Chair of the Communication Department

of the German University in Cairo. He has numerous publications and laboratory work on antennas microwave antennas, modern vehicle antennas, special antennas and implant antennas.

UNIVERSITY OF CITY ISLAND VISITS EMU RECTOR'S OFFICE

University of City Island Board of Trustees President Talip Emiroğlu and Rector Prof. Dr. Adnan Akgün paid a visit of courtesy to the Eastern Mediterranean University (EMU) Rector's Office on Thursday, the 6th of September 2018. During the said visit Emiroğlu and Prof.

Dr. Akgün met with Rector Prof. Dr. Osam, extending their best wishes for the new academic year. Prof. Dr. Osam thanked the duo for their visit, touching upon what the universities from the same city can do in order to provide valuable contributions to Famagusta.

EMU ACADEMICIAN EDUCATES YOUNG LEADERS IN MACEDONIA

Eastern Mediterranean University (EMU) Faculty of Communication academic staff member and Institutional Communication, Social Media and Web Office Coordinator Dr. Raziye Nevzat delivered education on Digital Marketing and Social Media at The School for Young Leaders in

Macedonia. Dr. Raziye Nevzat attended the education program that took place between the 27th of August and 1st of September 2018 upon invitation from the Republic of Macedonia Presidency. The School for Young Leaders is a project of the President of the Republic of Macedonia Dr. Gjorge

Ivanov which was initiated following his idea and vision to enable the young, talented and ambitious people from Macedonia to upgrade and improve their skills, to develop their creativity and managerial capacities. This year's School for Young Leaders is the ninth of its kind.

“I am Happy and Proud”

Expressing that she is proud to have received an invitation from the Republic of Macedonia Presidency and happy to be sharing her experiences with young people, Dr. Nevzat indicated that participants were very satisfied with the education they received. Relaying that she had the opportunity to meet with President Dr. Gjorge Ivanov in his office Dr. Nevzat noted that they carried out a conversation regarding education as well as the positive and negative effects of digitalization.

“Education is Provided by Experts from All Over the World”

In eight years, approximately 320 young people from all over

the country and abroad received education at the School which was organized for the first time in August 2010 in Ohrid. Those who participated in the School did so with the aim of developing their leadership skills and talents in different academic and professional fields. The mission of the School is to stimulate the positive values of the young intellectual elite and future political, cultural and economic leaders of the country and moreover to develop their capacities to take on the challenges which have emerged with global technologies, international competition and cultural as well as religious diversities. The program includes lectures and training delivered by experts from all over the world in the fields of leadership and management. The vision of the School for Leaders is to be a training center with high standards and a responsibility for integration of the modern political, scientific and technological knowledge and skills, based on respect for the basic human values.

EMU STUDENTS EXPLORE THE WORLD

The Eastern Mediterranean University (EMU) continues to send students abroad within the scope of student exchange programs. While student exchange programs have been available at EMU for over 10 years, the exchange program currently collaborates with 24 universities across 18 countries. EMU students can enhance their educational experience by studying at these universities for one or two semesters. As a result of collaborations with some of the world's leading universities, every EMU student is provided the opportunity to receive education in countries such as America, Germany, Iran, Denmark, Canada, Italy, Austria, South Korea and China where the credits they obtain will be valid at EMU. The university's experienced International Office team provides personal counselling for students who choose to partake on the extremely useful Student Exchange Program journey. Proving more opportunities for more students, EMU continues to expand the universities and countries which students can travel to within the scope of the student exchange program. During the last semester, EMU hosted 8 students from China, Kazakhstan and Austria. The students received education at the Banking and Finance, Tourism and Hospitality

Management, Psychology and Civil Engineering Departments.

EMU Students are Preparing to Travel to Different Regions:

The International Office has determined 10 students that will be coming to EMU within the scope of the Student Exchange Program for the Fall Semester of the 2018-2019 Academic Year. During the same period 15 EMU students will be travelling to universities who are in collaboration with EMU. One student from the Tourism and Hospitality Management program will be travelling to South Korea along with one student from the Gastronomy and Culinary Arts program and another from the Industrial Engineering Department. One student from the Management Engineering Department and two students from the Computer Engineering Department will be receiving education in New York. A student from the Banking and Finance Department will be studying at another American state; Illinois. 2 students will be travelling to Calgary, Canada (one from the Guidance and Psychological Counselling Department and another from the Department of Business Administration). A further three students will be going to Germany (from the Departments of Business, Tourism and Hospitality Management

and Political Science). Finally, students from the Department of Management Engineering and the Department of Mechanical Engineering will be continuing their education in İzmir.

Bulut: “It was an Amazingly Useful Period”

Mert Ercan Bulut from the Department of Tourism and Hospitality Management who studied as an exchange student in South Korea described his experience as affecting his career in a positive manner. Indicating that it is important for a Tourism and Hospitality student to understand cultural differences in order to be successful Bulut stated: “South Korea is a region which is

very different to our country in terms of daily life, culture and philosophy. It was important for me to go there and see this for myself. I can say that this semester was extremely beneficial as I obtained important information that will help my future career whilst studying the philosophies and culture of the Far East. If you are interested in the Student Exchange Program and would like further information about the journeys of exchange students please follow the links below: Facebook: emuexchange, Instagram: emuexchange, Email: studentexchange@emu.edu.tr, Website: www.studentexchange.emu.edu.tr

EMU ACADEMICIAN ASST. PROF. DR. ENDEN ANGIN RELEASES 8TH OF SEPTEMBER WORLD PHYSIOTHERAPISTS DAY MESSAGE

Eastern Mediterranean University (EMU) Faculty of Health Sciences, Department of Physiotherapy and Rehabilitation Chair Asst. Prof. Dr. Ender Angin released

a statement on 8th of September World Physiotherapists Day which reads as follows: "Public health and quality of life has been increasing since the emergence

of physiotherapy over 100 years ago. Physiotherapy emerged as a profession in Turkey and our country approximately 50 years ago. A physiotherapist is defined

as someone who has received undergraduate education in Physiotherapy and Rehabilitation, obtaining the necessary knowledge and skills to become a health professional. A physiotherapist is an important component of the rehabilitation team. In addition to the physiotherapist, such a team comprises of healthcare personnel such as a physical medicine and rehabilitation expert, specialty physicians, an occupational therapist, a dietician, an orthosis and prosthesis technician, a psychologist and a social service expert. When physiotherapists apply treatment and rehabilitation programs they make use of a range of daily exercises, neuromuscular treatment approaches, manual treatment methods, electrotherapy, functional activity education and vocational rehabilitation techniques. In our county a physiotherapist can work at hospitals, medical centers, special education schools, rehabilitation centers, fitness centers, sports clubs and old people's homes.

On behalf of the EMU Faculty of Health Sciences, Department of Physiotherapy and Rehabilitation I wish you a happy Physiotherapists Day."
