

## 1st Inter-Continental Concert (The Reunion of the Legends):

“Having a talent brings a responsibility” is the slogan of the first Inter-Continental Concert. Gathering an International team and utilizing their artistic capabilities and technological skills for creating a themed show was introduced as the aim of the first Inter-Continental Concerts. This event was a successful consociation of several university artists, famous and loved by their communities, for bringing them together on stage for the first time. The name Reunion of the Legends refers to this fact.

This performance was based on scientific, artistic and technological infrastructures developed by International students who formed a collaboration that enabled them to share their arts and skills in music, dance and administrating the program. The Reunion of the Legends was the first event of the Inter-Continental Concerts, held at the Eastern Mediterranean University in 2012. The performances of this concert were spanned over diverse music genres in 4 different languages, representing sympathy, teamwork, unified achievements and the beauty of cooperation.

North Cyprus – 2012
